## ABOUT

After I finished a web development bootcamp in Le Wagon, I started to work at DocSales, a company focused on electronic signature and document generation.

My favorite programming language is Ruby, I also studied Python at college. I am ready to new challenges and learn new technologies.

Visit my portfolio and my GitHub to see my projects.

## SKILLS

Ruby on Rails

JavaScript

Git/GitHub

HTML, SCSS/CSS

PostgreSQL

Bootstrap

OOP | CRUD | MVC

HTTP Protocol | HEROKU

## LOCAL

São Paulo, Brasil

## LANGUAGES

Portuguese – native  
English – Advanced

# LUCCA PALMIERI DITTRICH

## FULL STACK – RUBY ON RAILS

## WORK EXPERIENCE

### System Development for Web Services - DocSales

Oct. 2022 – Present

Working to make business proposals faster and easier. Making designs for documents in text editor using HTML, CSS, and Liquid language (written in Ruby) and making adjustments in the documents. I am also in transition to Development team.

### Quality Control Assistant - Cinpal

Jul. 2019 – Sep. 2020

I was responsible to assemble instruments to measure pieces in industry. My work was necessary so other workers had tools to work in their role.

## EDUCATION

### Le Wagon São Paulo – Batch #898

Web Development Coding Bootcamp  
Apr. 2022 – Jun. 2022

### Applied Technology Bachelor's Degree

Brigham Young University – Idaho  
Sep. 2021 – Dec. 2025

## PROJECTS (CLICK ON IMAGE TO GO TO WEBSITE, CREATE AN ACCOUNT TO SEE THE FUNCTIONALITIES)

### Let's Go – Social App

[GitHub source code](#)

By using Ruby on Rails, I built an events platform like a social media, Using APIs, MVC architecture, HTTP protocols and CRUD methods.

You can create an account, create an account, create events, send messages to friends, attend an event, see who is going, see localization, post and see photos. Services used:

PostgreSQL, HTML, JavaScript, CSS/SCSS, Cloudinary (photo upload), Mapbox (geolocalization), Heroku (hosting).

### Rent for All - Marketplace

[GitHub source code](#)

Platform to trade tools and basic utensils, using the same technologies mentioned above.

Skills: Teamwork, team communication.

### Provinha

[GitHub source code](#)

Platform for classrooms, students can answer tests, teachers can create tests and see answers from students, also the class president can give extra points to students. Adapted to mobile devices.

## OTHERS

### Pathway Connect Certificate

BYU Pathway Worldwide - Sep. 2020 – Jul. 2021

Webinars presented by students, with topics: finances, education, professional skills and others. Introduction to BYU University.

### ABIJCSUD – Missionary (Volunteer work)

Feb. 2017 – Feb. 2019

Visited houses and presented messages of hope and quality of life. I worked full time outside my hometown training other volunteers, giving weekly team trainings and daily personal accountability with coworkers.
